Organ Donation & Transplantation Journey in the Emirate of Dubai

Health Regulation Sector

Health Policies and Standards Department

By: Dr. Hanan Obaid, Mrs. Ayesha Ali AlFalahi, Dr. Rupali Bindra,
Ms. Fatma Ali AlMajid, Mr. Bakheet Beshtawy

Introduction

Organ donation and transplantation are critical components of modern medicine, offering life-saving solutions to patients with end-stage organ failure. This poster provides an overview of the organ donation and transplantation journey in the Emirate of Dubai, highlighting collaborations, regulatory framework, public awareness campaigns and key statistics.

Gift of Life

Life-Saving Procedure

Hope for Patients

Collaborations

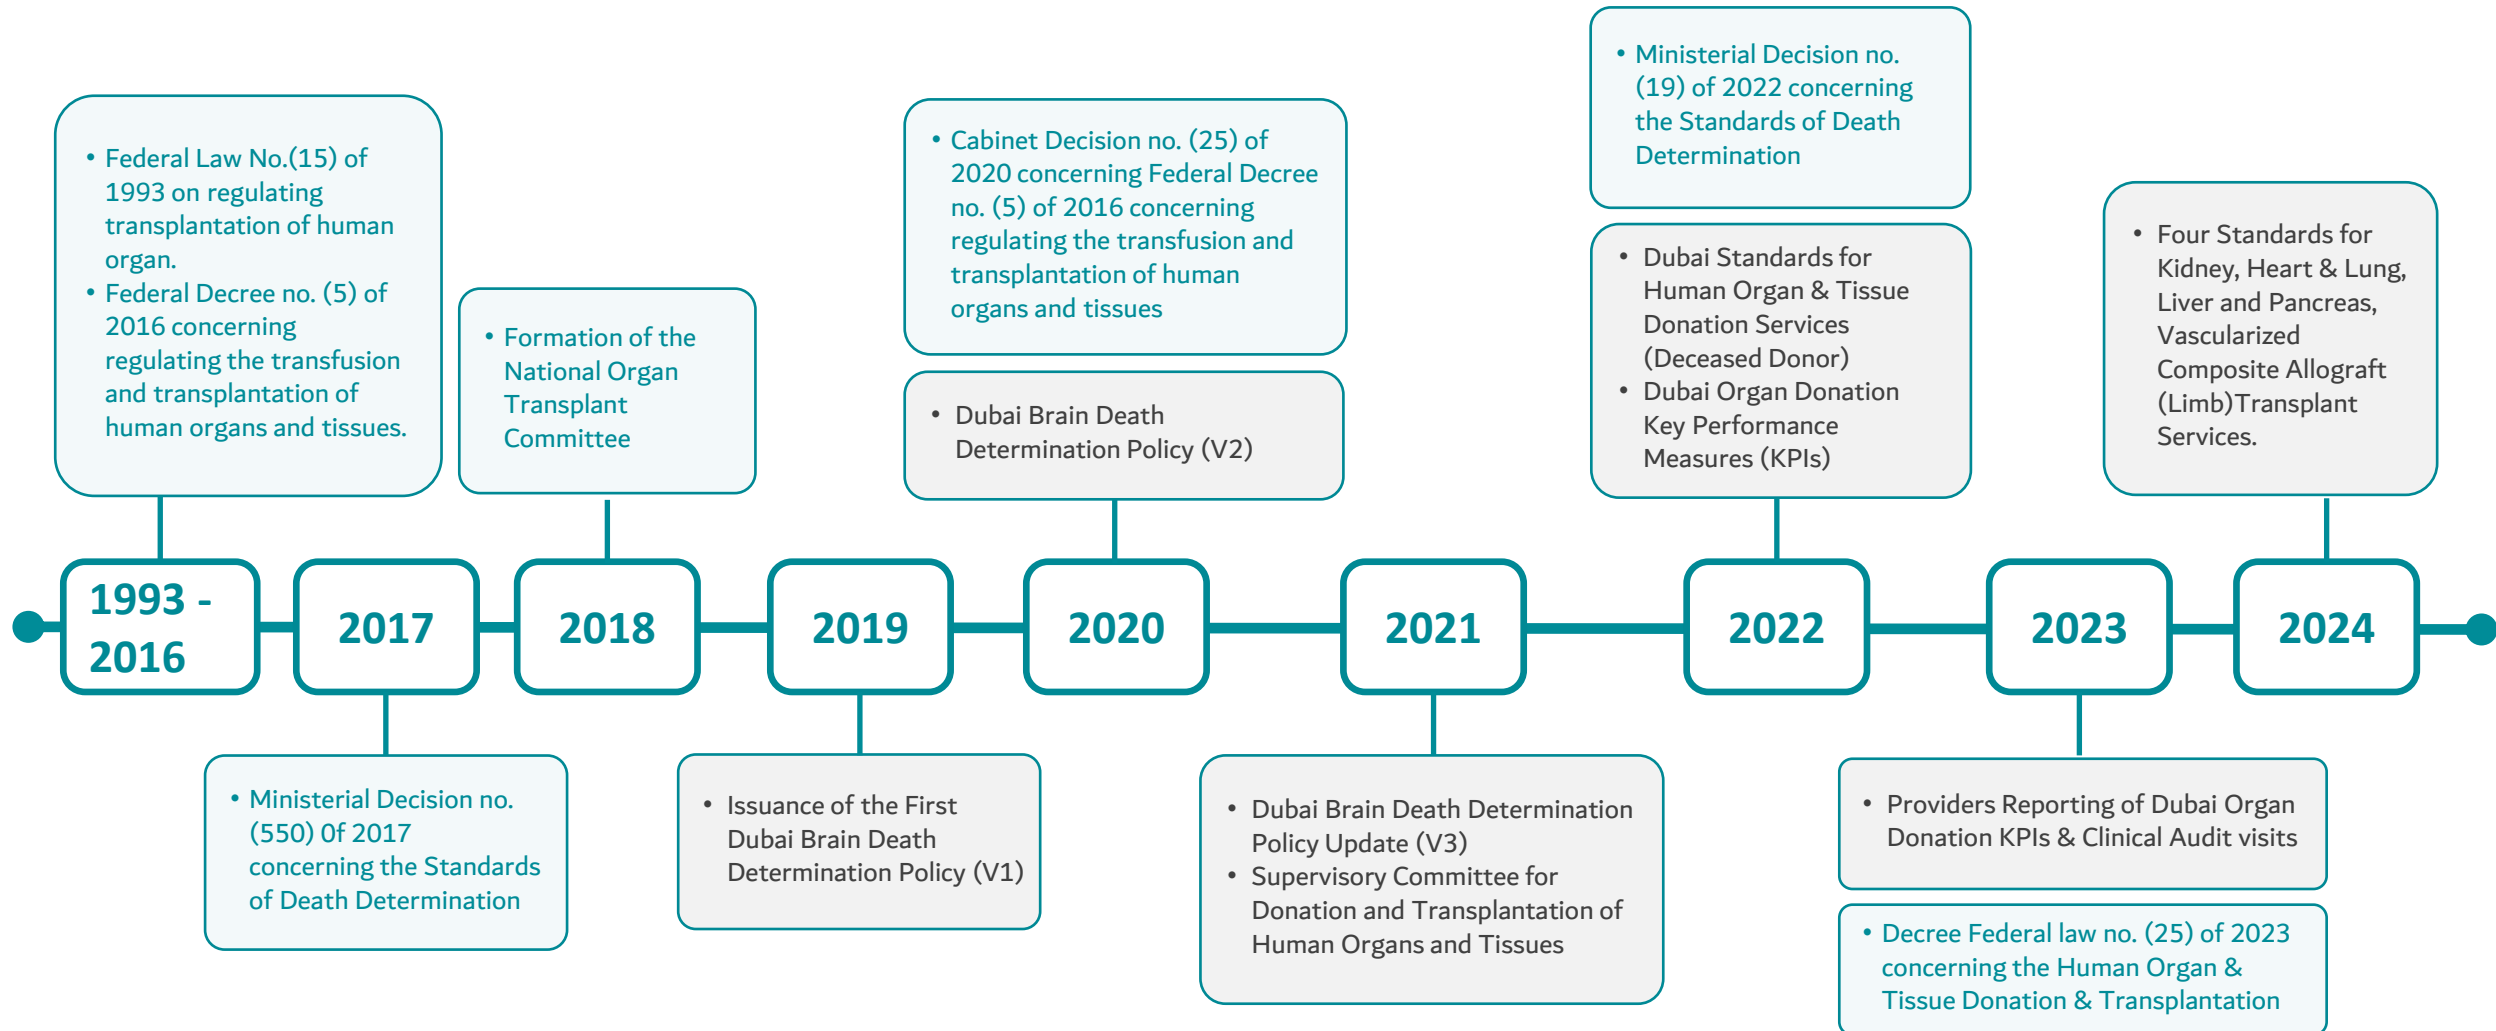

- Review Organ Donation & Transplantation Federal Laws and Ministerial Decisions
- Collaborate with the National Committee for Organ Transplantation, Ministry of Health and Prevention (MOHAP), National Center for Regulating Organ and Tissue Donation and Transplantation and Organ Transplant Center- Abu Dhabi
- License hospitals for organ transplant services in the Emirate of Dubai
- Conduct field visits and clinical audits in Dubai Health Authority (DHA) licensed hospitals with experts from UMass Memorial Health
- Develop Standards with United Network for Organ Sharing (UNOS)
- Develop Standards with Donation & Transplantation Institute (DTI)

Regulatory Journey

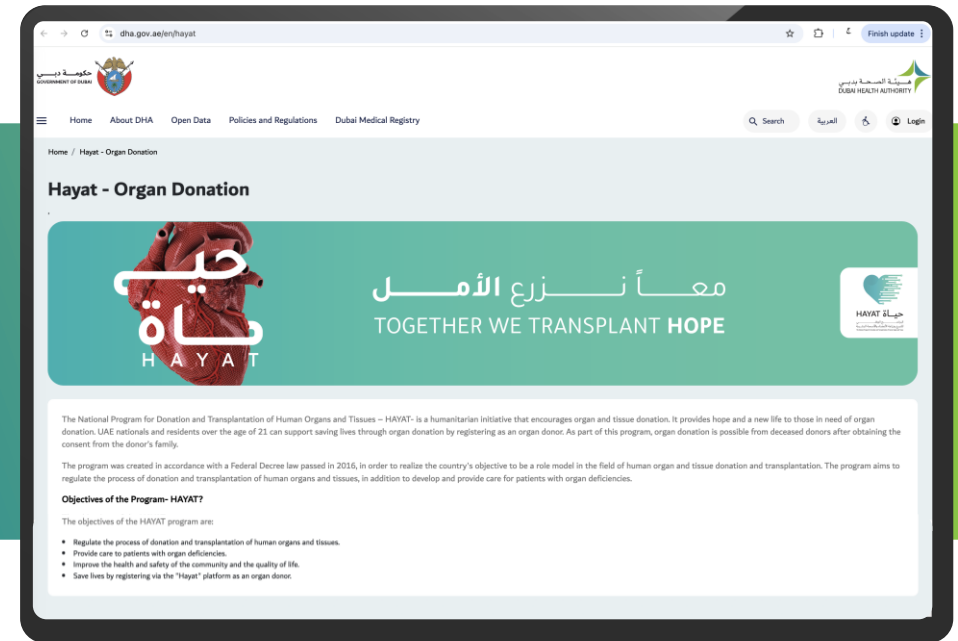

UAE has established Federal Laws and Ministerial Decisions and Dubai has established comprehensive Policies and Standards for organ donation and transplantation. These ensure ethical practices and patient safety.
