

Gabriela Gutierrez, Argentina/Paraguay

I am a Pediatric Nephrologist, trained at the National University of Asuncion, Paraguay. I have completed a research stay at the JP Garrahan Pediatric Hospital in Argentina.

I am deeply passionate about research in pediatric kidney transplantation and I am highly motivated to learn continually to contribute to improving the quality of life for transplant patients. My current focus is on data pertaining to children with PTLD and FSGS, with the aim of publishing these findings.
