

Brussels, July 25, 2023

**To whom it may concern**

I certify that Mr Nizar Mourad is currently engaged as a post-doctoral fellow at my laboratory at the University of Louvain (UCLouvain) in Brussels. His research project, run under my supervision, concerns porcine islet physiology and transplantation.

I support his application for a fellow registration at the IXA congress (26-29 October 2023).
