RE: RESIDENCY PROGRAM - DR. ROBERTA PISU

To Whom it may concern,

Dear Madam/Sir,

this is to certify that Dr Roberta Pisu is currently enrolled in a residency program in Clinical Pathology and Biochemical Pathology. The four-year program will comprise both clinical and experimental training in all aspects of the above disciplines, including transplantation and regenerative medicine.

Participation to international scientific meetings is highly recommended to our residents. Any form of financial support that you could offer (such as travel grants) would be helpful towards this end.

Should you require any further information in this regard, please do not hesitate to contact me.

Sincerely,

Prof. Ezio Laconi
