Concerning Supporting letter Young Investigator Award for Yvette den Hartog

Postal address

P.O. box 2040
3000 CA Rotterdam, NL

Dear TTS,

Visiting address

Dr. Molewaterplein 40
3015 GD Rotterdam, NL

I am writing to confirm the status of Yvette den Hartog as a PhD trainee in our Nephrology and Transplantation laboratory at Erasmus Medical Center. As the program director, it is my pleasure to provide a supporting letter about Yvette's candidacy.

Contact & route

www.erasmusmc.nl

Yvette has been part of our research program, focusing on SARS-CoV-2 cellular immunity in kidney transplant recipients who have received COVID-19 vaccinations. This research is of paramount importance given the ongoing global health crisis and the implications for transplant recipients who are particularly vulnerable to viral infections.

Our training program emphasizes a multidisciplinary approach, integrating various aspects of immunology, virology, and transplantation medicine. Students like Yvette have the opportunity to engage in cutting-edge research, collaborate with experts in the field, and gain valuable insights into the intricacies of cellular immunity in the context of viral infections and transplantation.

Based on Yvette's progress and commitment to the PhD training program, it is estimated that she will complete her training by July 2025. Throughout she has demonstrated critical thinking skills, and a strong work ethic, all of which are essential qualities for success in her future.

Please feel free to contact me if you require any further information regarding Yvette's participation in our program. I am more than willing to provide additional details or discuss her qualifications in greater depth.

Sincerely,

Prof. dr. C.C. Baan
Head of Nephrology and Transplantation laboratory
Department of Internal Medicine, Nephrology and
Transplantation
